 - A child will be the qualified age by the start of the season.
 - **Example:** My son was 8 on the aging date of 9/1/2025, but will be 9 by the start of the season. In this example, the child would be able to play in either the 8U or 10U division as he would be 9 by the start of the season.
 - The parent of the child will be the head coach of the team.
 - A coach has requested the child to be placed on their team.
 - In order to be approved for this exception, the coach would need to send an email to Athletic staff requesting the child to be on their team.
